SUMMARY

Former educator transitioning into Front End Developer role after completing Carolina Code School. I have experience with HTML, CSS, JavaScript, Bootstrap, React, Python, Django, React Bootstrap, Rest API'S and I understand the importance of creating highly readable and easily maintainable source code with experience in Agile methodology.

Skills

Coding languages - HTML, CSS, JavaScript, Python

Frameworks - React, Django, Django Rest Framework, Bootstrap, Rest API'S, Git, Github

Other tools - Material UI, React Bootstrap, Framer Motion, React Router, JS Cookies, Microsoft Office

Projects

Better Minds Tutoring App

- Created an app where users are able to find and connect with a certified tutor for a personalized learning plan.
 - Implemented JS Cookies where user data is stored
 - Managed accounts in the rest API'S on the backend using Django rest Framework
 - Accounts are stored in database using Django models and SQL Lite
 - Used React for user interface and React Router to navigate through site
 - Used Send Grid Email API to notify tutor of a new student that has selected them
 - Implemented Material UI for front-end design on ratings left by students on tutors
 - Used React Bootstrap for card design for the tutors and students
 - Used HTML and CSS is used for structural and visual layout of the site
-  <https://www.loom.com/share/4074ed81e442409a9e3183c9e073c0cat>

Pixel Perfect

- Created UI with pixels implementing the same design on screen
- Used HTML and CSS for structural and visual design of the site
- Made UI responsive to other devices
